SPECIALIST IN PACKAGED DRINKING WATER PLANT

(AS PER BIS NORMS)

Our expertise comes into action when it comes to establishing Packaged Drinking Water Plants. Our skilled team has in-depth technical knowledge of designing ISI-compliant and BIS-approved packaged drinking water systems. We customize each plant to match specific production requirements, starting from 2000 LPH and above. Over the years, we have successfully commissioned numerous packaged drinking water plants, all of which have received BIS approval and continue to deliver dependable performance and exceptional water quality.
